WOLF FORKLIFT

FORKLIFT USAGE SCENARIOS

COMMITTED TO EFFICIENCY

Introducing the latest range of WOLF forklifts, the exclusive W-Series sets a new standard for versatility, productivity and durability. Armed with input from the people who run them, WOLF Research and Development team sets out a mission to design the ultimate forklift that combines both form and functionality; and housed it into one power-packed machine.

Our engineers have invested time in selecting the best of components and parts; while performing numerous tests to ensure that the new and improved series of forklifts achieve optimal performance levels and maximum efficiency.

FORKLIFT

FUEL FORKLIFT

Specification			WF150	WF200	WF250
Characteristics	Fuel type		Diesel	Diesel	Diesel
	Load capacity		kg1500	2000	2500
	Load center		mm500	500	500
	Lift height		mm3000	3000	3000

FORKLIFT

ELECTRIC FORKLIFT TRUCK

ADVANTAGES

SAFETY AND STABILITY

- Most popular H type driving axle, optimized structure layout and improved efficiency.
- High power and large torque AC driving motor, large diameter body to export larger torque, heat radiating groove reserved for better heat exchange in case of extra-long-time use.
- Multifunctional display with using time, fault code, battery status, forklift running information.
- AC driving motor without brush, free of maintenance; low electric current, silent driving.
- Low gravity center thanks to relocated battery, greatly reinforcing steering stability.
- Steering circuit preference, to ensure safety in every turn when steering and lifting in the same time, and to save energy.
- Dual-controller design, one driving controller, the other control steering and lifting.
- Metal housing for better protection.
- Full LED lights.

ERGONOMICS

- Optimized structure creates a large and comfortable operating room.
- Adjustable steering wheel column, the driver can adjust the position according to his need.
- Integrated light switch and steering wheel.
- Clear and wide view mast with good visibility.
- Intelligent mast collapse buffering.

SERVICE ABILITY

- Easy maintained controller and steering potentiometer.
- Brushless lifting and driving motor; reduced cost of ownership; external encoder, easy to replace and service.
- Over discharge protecting system: while the battery discharges less than 20%, the instrument warning light will turn on.
- Braking oil cup installed on the instrument panel, convenient to check and add braking oil.

OPTIONAL

- Side-way battery box
- Electromagnetic valve
- Shock-absorbing chair, with power disconnect function
- Dual-front-wheels
- Adjustable lifting motor speed system
- Cold storage application
- Lithium battery

Driving control system		AC	AC	AC	AC

OPTION:

- FB20R Lithium battery 350AH (Charger 48V/100A)
- FB25R Lithium battery 450AH (Charger 48V/200A)

REMARK:

- The data is based on the lifting height 3000mm; Lifting height from 3000mm to 6000mm are available;
- Electric controller selection (1)standard: Enpower (2)Option: Curtis, Inmotion, ZAPI.
